

Business Mission Statement

It is our vision to be intentional about our work and actions, to know the calling, direction, and goals we strive for without question. To work together as a Team never divided. As to create a drive in ourselves and those around us to live out the calling He has given us with passion. To impact changed lives in those around us by sparking Courage to follow Him like never before. To equip those around us to embark on God's Mission both here and abroad. And to strengthen the Covenant of Family placed by the voice of God.

- Our work generates funds to support families and missions both foreign and domestic.
- We are a business but with the heart and passion of a ministry.
- We train and equip those with the calling of ministry.
- We empower leaders to go out and empower others.
- We strive to be a light in this age where morals are failing.

Our desire

We should work each day understanding we are supporting the lives and ministry of many others.

This will help our motivation and understanding of the effort we give as a team.

We should think of those we are helping and not think of our own desires.

We should help those around us to discover their vision God has given them.

We should work hard to understand the vision of each team member and pray for them each day.

We should work to support the vision of each team member and impart courage to their hearts.

We should joyfully bear each other's burden and grow stronger together.

We should each member embark on a yearly mission trip to not forget what we work for.

We choose to financially support the following:

NOTE: Your business vision empowers others to join and support you. If you want the support of others, you need to develop a cause they can believe in and they will join or support you.

In turn, you need to believe in others to equip them to reach their goals. It is important that you discover the personal vision of each staff member to help them get where they are going.

If they know you are helping them achieve their goals, they will believe in their work and stick with you.

You want your staff to be driven by passion, so lead them with passion.

An un-passionate workplace is stifling and on the downward path.
