

# Our Family Vision

**Purpose Statement**

Our family exists to become one with Christ and each other as we walk out Faith in Unity.

**Vision Statement**

Our first ministry to God is: to Nurture the family relationship He has given us, to further understand Him and show His Love. We will live by example putting our total trust in God. We will strive to equip ourselves and those around us to be Faithful in His calling and serve one another. We will show His Love by supporting each other's God given Visions and Dreams. We will share His gifts with others across the world in service of Him.
